Description

FMS Repair Replace Cross Reference

List

AFSA

- Provides information about Repair and Replace Requisitions.
- Repair/Replace requisition is one where a country/organization has submitted an item for repair and the USAF will supply them one from its stocks.
- Replacement document number is also called an "H-coded" document number.
- SAMIS QAID 175 and QAID 269 screens can also be used to obtain additional detailed data.

Date Shipped: For active requisitions, the seven position Julian date when items were shipped.

Repair Cost: This refers to the unit price assigned to repair/replace requisitions generated by SAMIS. It equals the current inflation factor times the repair cost, plus 3.5 percent of the item standard price (PC&H).

Programmed Code (Pgm Cd): FMSO II requisitions have either a programmed (eligible for support from depot stocks) or non-programmed (eligible only for support from excess assets or from new procurement, and support can be lead-time away.) code.

AFSAC Online -

Repair & Replace Cross Reference

Another option is to generate an active list by entering:

Country - Two-character country code. Note: This field is mandatory.

Case - Enter the three letter case designator. Optional, but will narrow search.

Line - Enter the three-digit number for the line number (e.g. 001). months. Optional, but will narrow search.

Open - A requisition that has been accepted in SAMIS and has not received final deliveries, and/or cancellations equal to the original requisition quantity.

Active - A requisition that has been accepted in SAMIS and is either open or has completed within the last six

An active list is a little different than an open list.

Number of pages has increased because the list shows all open and completed requisitions in last 6 months

Practice

AFSA

Now it is your turn:

- Use your own AFSAC Online user ID and password, and research items that have been sent in for repair and replace.
